

# Warm Water

## Banks

Looking you over,  
and you don't know my name yet  
But by the time you looked away  
already knew I couldn't fake it

I got this need for you forming in my beating heart  
I knew the meaning right away, we only yesterday  
were worlds apart

I think I may love you, if you give me some time,  
maybe you'll love me too

I got this thing for you  
if you come closer I can whisper in your ear  
and if you wanna walk away  
I'll tell you all the things I know you wanna hear.

I'll come closer  
to you if you  
come over  
I know we'll go farther  
farther with you  
with you I'm in warm water swimming down.

I think I may love you, if you give me some time,  
maybe you'll love me too

I'll come closer  
to you if you  
come over  
I know we'll go farther  
farther with you  
with you I'm in warm water swimming down.

I'll come closer  
to you if you  
come over  
I know we'll go farther  
farther with you  
with you I'm in warm water swimming down.
