

# Love Is Rare

## Morcheeba

You got a rocket in your pocket  
Why can you just let me be  
Have you no eyes in your sockets  
Are you just pleased to see meAs you all know you better take care  
Treat me with respect because love is rare  
As you all know you better take care  
Treat me with respect because love is rare  
Love is rareI got so holy it hurt  
Why was I blessed with this rage  
You rub my face in the dirt  
And there's a time to turn a new pageAs you all know  
You better take care  
Treat me with respect  
Because love is rareAs you all know  
( As you all know )  
You better beware  
( You better beware )  
Treat me with respect because love is rareAs you all know you better take care  
Treat me with respect because love is rare  
As you all know you better beware  
Treat me with respect because love is rareAs you all know  
You better take care  
(Just take care)  
Treat me with respect because  
(Love is rare)As you all know  
You better beware  
(You better beware)  
Treat me with respect because  
(Love is rare)As you all know you better take care  
Treat me with respect because  
As you all know you better beware  
Treat me with respect becauseAs you all know you better take care  
Treat me with respect because  
As you all know  
(Don't go rubbin' my face in the dirt)  
You better beware  
Treat me with respect becauseAs you all know you better take care  
Treat me with respect because
