BTS (Bangtan Boys) - A Supplementary Story : You Never Walk Alone English Translation

Why does God keep bothering us? Oh no
Even if we're filled with scars
We can smile, if we're together
At the end of this road that I walk on by myself
Whatever is there, I'll take a step
Though I get tired and hurt sometimes
It's alright, because I'm next to you
You and I, if we're together
We can smile
I wanna fly

But I have no wings
But your hands
Become my wings
I wanna forget darkness and loneliness
With you
These wings came from pain
But they are wings headed for the light
Though it's hard and it hurts
If I can fly, I will fly
So I won't be scared anymore
Will you hold my hand?
You and I, if we're together
We can smile
Even if this is the path I chose
Even if everyone says I made my own destiny
Even if this is a sin I committed
Even if this whole life is just a price to pay for the sin
Walk with me
Fly with me
To the end of the sky
So our hands can touch
Even if it hurts
You and I, if we're together
We can smile
Ayy I never walk alone
From your hands, I feel your warmth
Ayy you never walk alone
Feel me, you're not alone either
Come on Crawl crawl
crawl crawl it like it like that
Baby Walk walk walk
walk it like it like that
Baby run run run run
it like it like that
Baby fly fly fly fly
it like it like that
Even if this road is far and dangerous
Will you be with me?
Even if I fall and get hurt sometimes
Will you be with me?
Ayy I never walk alone
You and I, if we're together
We can smile
Ayy You never walk alone
You and I, if we're together

We can smile
You and I, if we're together
We can smile
