Summertime

Lonestar

I like your look in that sweater
All warm and bundled up tight
But I keep picturin' something, a little different tonight
I see you in a bikini
One lazy toe in the pool
Laid back and sippin' on somethin' long tall and cool
I can't wait for a warm breeze blowin'
Green grass growin' in the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
Oh the summertime
I'm gonna find us some tickets
To a tropical isle
You just see if your mama can keep the kids for awhile
We'll take our drinks with umbrellas
We'll take a room with a view
I'm gonna take my sweet time makin' love to you
That's what I'm gonna do
I can't wait for a warm breeze blowin'
Green grass growin' in the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
Feel your body next to mine
Oh the summertime
I can't wait for a warm breeze blowin'
Green grass growin' in the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
I can't wait for a warm breeze blowin'
Green grass growin' in the bright sunshine
Short sundress with your long legs showin'
I can't wait for the summertime
Feel your body next to mine
In the summertime
Summertime
Summertime
In the summertime
