

# Summertime

## Lonestar

I like your look in that sweater  
All warm and bundled up tight  
But I keep picturin' something, a little different tonight  
I see you in a bikini  
One lazy toe in the pool  
Laid back and sippin' on somethin' long tall and cool  
I can't wait for a warm breeze blowin'  
Green grass growin' in the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
Oh the summertime  
I'm gonna find us some tickets  
To a tropical isle  
You just see if your mama can keep the kids for awhile  
We'll take our drinks with umbrellas  
We'll take a room with a view  
I'm gonna take my sweet time makin' love to you  
That's what I'm gonna do  
I can't wait for a warm breeze blowin'  
Green grass growin' in the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
Feel your body next to mine  
Oh the summertime  
I can't wait for a warm breeze blowin'  
Green grass growin' in the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
I can't wait for a warm breeze blowin'  
Green grass growin' in the bright sunshine  
Short sundress with your long legs showin'  
I can't wait for the summertime  
Feel your body next to mine  
In the summertime  
Summertime  
Summertime  
In the summertime
