

If I Could Reach Out (And Help Somebody)

Otis Clay

Sometimes I get so depressed y'all
The same things don't go my way
But if I can reach out and help somebody
 Than I've had a good day
If I could help some sister or brother
 If I could reach and help somebody
 Than I have had a good day
If I could reach out help somebody
 Help somebody find their way
If I could help feed somebody that's hungry
 Help someones that's lost be found
 Have a little mercy
On those who's right or wrongHelp someone who's blind see
 Brightens someones life
That's filled with miseryIf I could reach out help somebody
 Help somebody find their way
If I could reach out and help somebody
 If I could get some one out there
Than I've had a good dayI've I could get some one out there
 Who might going down the wrong path
 Let him realize what he's doing is bad
