The Challenge

Project Mayhem

Fear of tomorrow - we're waiting for the final crash
The lost illusion - there ain't no light for us to seeOur gods commandments - we once forgot and threw away
Humiliating - our lifes on earth will fade awayA hopeless challenge - we're on our knees
Time's getting nearer
We thought we were wise but we cannot survive on this earthWe challenged nature - we made it fall instead of rise
Our mighty empire - is surely built on sinkin' groundA hopeless challenge - we're on our knees
Time's getting nearer
We thought we were wise but we cannot survive on this earthInnocent dreams turned to nightmare
Palace of glass, turned to dust
Day turned to night, don't you care
Life turned to death, forever lost.
