

# The Challenge

## Project Mayhem

Fear of tomorrow - we're waiting for the final crash  
The lost illusion - there ain't no light for us to see  
Our gods commandments - we once forgot and threw away  
Humiliating - our lives on earth will fade away  
A hopeless challenge - we're on our knees  
Time's getting nearer  
We thought we were wise but we cannot survive on this earth  
We challenged nature - we made it fall instead of  
rise  
Our mighty empire - is surely built on sinkin' ground  
A hopeless challenge - we're on our knees  
Time's getting nearer  
We thought we were wise but we cannot survive on this earth  
Innocent dreams turned to nightmare  
Palace of glass, turned to dust  
Day turned to night, don't you care  
Life turned to death, forever lost.
