

In the First Place

Eric Hutchinson

f you had any idea what it was gonna take
Would you have gotten started in the first place
All these commitments youve made
They keep on adding up
Because you got addicted from the first tasteOoooh, nobody wonders
Nobody really cares
Ooooh, about your intentions
Until you gotten there(Chorus)
Oooo, when you started out, you were just a blank space
You started out, you were just an ordinary face
You started out, now youve got to finish what youve done
Isnt that why you started in the first place
Started in the first placeIf you had ever believed
That you were gonna break
Would you have gotten going in the first place
All these decisions it takes
To get you through the day
With no one even noticing your heart breakOoooh, are you alone yes
Are you in trouble no
Ooooh, peoples opinions
They tend to come and goOoooh, when you started out, you were just a blank space
You started out, you were just an ordinary face
You started out, now youve got to finish what youve done
Isnt that why you started in the first place
Started in the first placeHow do you know
When youre finally done
If youve got nothing to show
How do you know
When all the people you might trust
All forget to let you knowOoooh, when you started out, you were just a blank space
You started out, you were just an ordinary face
You started out, now youve got to finish what youve done
Isnt the why you started in the first place
Started in the first placeCan you remember at the start
Can you remember trying your first shot
Can you remember wanting to be there
Can you remember wanting to be there
Do you know why you started in the first place
Do you know why you started in the first place

In the first place
