I Really Like You

Melissa Etheridge

I'll buy you mango's baby your favorite fruit
I'll shave everything baby, I'll press my suit
I'll find that song by Perry Como you like to sing
I'll eat your TV dinners and wear you cigar ring
Do you think that I can persuade
Don't make me fade
Because I really like you baby
I want to see you baby
I really like you baby
I want to be you baby
I'll gladly make you baby my first tattoo
You and me forever in red and black and blue
I'll let you drive my car, I'll even paint my eyes
Forget about all my friends and tell outrageous lies
Do you think I can persuade
Don't make me fade
Because I really like you baby
I want to see you baby
I really like you baby
I want to be you baby
I really like you
I want to see you
I really like you
I want to be you
