

# Miracle

Moriah Peters

It's hard to see reason  
When there's so little hope alive  
This is the season  
To put faith in innocent eyes  
We're all thinking too much  
We're so out of touch  
We need to start over again  
So just let it wander  
'Cause you're never too old to pretend  
Tell you, just a little miracle  
Is all you need to believe  
Just a little miracle  
Is all you need to believe  
It's not too late to wake up  
Don't make no difference who you are  
Just take off your make-up  
And discover the child in your heart  
Tell you, just a little miracle  
Is all you need to believe  
Just a little miracle  
Is all you need to believe  
We're all thinking too much  
We're so out of touch  
We need to start over again  
So just let it wander  
'Cause you're never too old to pretend  
Tell you, just a little miracle  
Is all you need to believe  
Just a little miracle  
Is all you need to believe
