

Fire Escape

Burning Brides

I take the fire escape to where
I can't remember
I find what I am looking for
then I just surrender

I climb above the street below
to escape the boredom
words get stuck inside my head
in a different order

up on the fire escape there's you and me
up on the fire escape I want to be

the frozen steps have made it hard
to keep from falling
sirens very far away
just keep on calling

up on the fire escape there's you and me
up on the fire escape I want to be

what have you opened up inside of me? (2)
what have you opened up inside of, inside of me
what have you opened up inside of me? (2)
what have you opened up inside of, inside of me
