

# Beautiful World

## The Chevin

Look at the world as it's turning  
Look at the light as it shines down on me  
Every star suffered burning  
Every atom of light from the sea

It's such a beautiful world  
Can't we all of us want it in peace  
It's such a beautiful world  
And if you want it, you just have to believe  
Open your eyes and you'll see

Look at the wall as it's turning  
Infinite life lived in infinite speeds  
Every smell, every sound of the color  
All that is you makes up all that is me

It's such a beautiful world  
Can't we all of us want it in peace  
It's such a beautiful world  
And if you want it, you just have to believe  
Open your eyes and you'll see  
Open your eyes and you'll see

It's such a beautiful world  
Can't we all of us want it in peace  
It's such a beautiful world  
And if you want it, you just have to believe  
It's such a beautiful world  
It's such a beautiful world  
It's such a beautiful world  
And if you want it, you just have to believe  
Open your eyes and you'll see

Look at the world as it's turning  
Look at the light as it shines down on me
