

What If I Go?

Mura Masa

Where ever you go
Going with you bae
Going with you bae
I [?] all that ethylene
Wouldn't miss a thing
When you're lost on your own and you're wondering
If I'm following
Just know where ever you go
I'm going with you bae
Going with you baeLuck of the draw, you
That's my lottery won
A gem in the rough
I could be your finishing touch
So where ever you go
I'm going with you bae
Going with you bae
Where ever you go
Going with you bae
Going with you baeGo, going, going, ohIs it really like this?
See your lightning
Shining brightly through a haze
A little [?] and arrow
Smoke and mirrors
Blue and icy
Meet my gates
Boom my heartbeat
Slide but block love
Slow to get up
Hard to say
You fill my head with madness
Good and bad
Don't be the one that got away
Got awayWhere ever you go
Going with you bae
Going with you bae
And every night spend without your face
Has been shattering
I color my world in a violet shade to hide the pain
And you go solo no longer

I be, I be good for sure
Luck of the draw, you
That's my lottery won
A gem in the rough
I could be your finishing touch
So where ever you go
I'm going with you bae
Going with you bae
Where ever you go
Going with you bae
Going with you bae
Go, going, going, oh
Where ever you go
Going with you bae
Going with you bae
Where ever you go
Going with you bae
Going with you bae
(I'm going)
Where ever you go
(I'm going with you)
Going with you bae
Going with you bae
(Where ever you go)
Where ever you go
(I'm going with you)
Going with you bae
(I'm going with you bae)
Going with you bae
(Yeah)
