

Missing You

The Bombsters

Could it be my fascination?
Could it be that you're the one?
It could be I'm in love with an angel,
and I think that that's the one. And it was only yesterday,
but I think I miss you now.
And I know I'm gonna see you soon,
but I wanna see you now. You helped me through the bad times.
You held my hand. You gave me joy.
You're my angel from high above,
and I miss you. Yeah I miss you, baby. And It was only yesterday,
but I think I miss you now.
And I know I'm gonna see you soon,
but I wanna see you now.
