

Expanding Man

Dilated Peoples

As I expand you
Ay yo amplify, magnify, broaden my reach
Expand, exercise, ex-get increased
The 'e' and the 'x' are connected like excellence
The 'p' is for peoples that Dilated represents
(Evidence A-N for all night) PM to AM
And D's for droppin rhymes with no delayin'
Even numb from Novacane you feel the slow pain
See flames but fuel the fire like propane
(Evidence now hold that) keep that lock and less beats
War's not the word to play its like peace
I'm a cyborg connected with a mic in my hand
As I expand you know I am am
A triple optometrist mental megalopolis
A student on these L.A. blocks
Raakaa Iriscience rapid fire how I transmit
Ay yo me and Omega, Devious Doze used to pose
Hypothetical flows gettin' thrown with no foes
A decade ago- introduced to Will Copper
And out the other side of my fear- a field trooper
Son of a preacher- in school a student teacher
But I'd rather read or hit the theater for a double feature
Bored night creature well I used to trade books
When science appeared fellow scientists trade looks (y'all see that?)
A brick by brick builder I learned to mortar
Gettin' smarter and smarter from Homocide and Law and Order
Street poet, mild man or reporter
Til I flip like Kool Kieth drippin' droppin' like water
Raakaa Iriscience create to devastate
Why wait put your gloves out
Expand and dilate
As I expand you know who I am Its the expanding man
A triple optometrist mental megalopolis
A student on these L.A. blocks
Iriscience you know who I am am
Now I haven't forgotten all the drugs at Bush rottin'
Its funny how its maybe his stash your son got in
Man, Uncle Sam facilitated the plan
Got weed dealt in miligrams and grams and kilograms

(Evidence Yo, word to our lye) they can heal a killa man
They might have a plant they can if they got a pill to can
Body upon young body into camps
But camps turn to pen when boys to turn to men
War bein' used to both profit and clense
War spoke- why it camouflage the feds
I'm a freedom fighter, reader, writer, rapper, and fan
As I expand you know who I am
You know who he is
As I expand you know who I am
The expanding man
As I expand you know who I am am
As I expand you know who I am
Its the expanding man
