Coattails

Broods

I can't remember and I can't concentrate
But I can take a note to burn the ink
A hit between the eyes
And our souls are meant to be sold
And our friends are only to hope
That I can't do what I'm told

So we'll ride the coattails to the finish line
I don't hear those church bells chime anymore
Cause I'm in love with this
So we'll ride the coattails to the finish line
I don't hear those church bells chime anymore
Cause I'm in love with this

For a moment I feel I'm losing it
Throw my temper down and bury it
The earth will reach the sky
If you talk me out of my needs
And stitch me up at the seams
And I could lever my dreams

So we'll ride the coattails to the finish line
I don't hear those church bells chime anymore
Cause I'm in love with this
So we'll ride the coattails to the finish line
I don't hear those church bells chime anymore
Cause I'm in love with this

In love, in love, in love
In love, in love, in love

Oh oh oh oh
Oh oh oh oh
Oh oh oh oh
Oh oh oh oh

So we'll ride the coattails to the finish line
I don't hear those church bells chime anymore
Cause I'm in love with this
So we'll ride the coattails to the finish line

I don't hear those church bells chime anymore
Cause I'm in love with this

In love, in love, in love
In love, in love, in love
In love, in love, in love
In love, in love, in love
