

# Coattails

## Broods

I can't remember and I can't concentrate  
But I can take a note to burn the ink  
A hit between the eyes  
And our souls are meant to be sold  
And our friends are only to hope  
That I can't do what I'm told

So we'll ride the coattails to the finish line  
I don't hear those church bells chime anymore  
Cause I'm in love with this  
So we'll ride the coattails to the finish line  
I don't hear those church bells chime anymore  
Cause I'm in love with this

For a moment I feel I'm losing it  
Throw my temper down and bury it  
The earth will reach the sky  
If you talk me out of my needs  
And stitch me up at the seams  
And I could lever my dreams

So we'll ride the coattails to the finish line  
I don't hear those church bells chime anymore  
Cause I'm in love with this  
So we'll ride the coattails to the finish line  
I don't hear those church bells chime anymore  
Cause I'm in love with this

In love, in love, in love  
In love, in love, in love

Oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh  
Oh oh oh oh

So we'll ride the coattails to the finish line  
I don't hear those church bells chime anymore  
Cause I'm in love with this  
So we'll ride the coattails to the finish line

I don't hear those church bells chime anymore  
Cause I'm in love with this

In love, in love, in love  
In love, in love, in love  
In love, in love, in love  
In love, in love, in love
