Superheroes (Live In Los Angeles)

Edguy

City lights are calling
slowly coming back to life
Speeding in the fastlane
Mama let us waste no timeDevil in the doorway selling any kind of hell
We're just coming out to play the gameWe never cry for love - we're superheroes
We are back where we belong
We never cry for pain - we're superheroes
Make a stand where we belongWay too long I've tried to be
what I could never be
For too long you've rolled the dice
but you can't control me
I ain't talking 'bout romance
you may fiddle I may dance
Anyway it's just a game we play..We never cry for love - we're superheroes
We are back where we belong
We never cry for pain - we're superheroes
Make a stand where we belong we're superheroesYou gotta move to stay alive
We're gonna rock the bash tonight..Cry for love-we're superheroes
We are back where we belongWe never cry for love...
