

Endless Summer

[Danielle Bradbery](#)

I remember you and I that July
We were falling hard underneath the stars
As we danced slow to the radio
First taste of love couldn't get enough
In the pale moonlight just flying blind I still feel you
Just like I used to
That time of year when days get long [Chorus]
Warm winds blowing
Reckless still in my mind
Takes me right back to that time
When I was your baby and you were mine
We were on fire just like the sun above
Couldn't burn hot enough for each other
Endless summer
Endless summer I could have stayed in our hometown
Married you and settled down
With a picket fence & would've had a couple kids by now
But I had to get out
Couldn't hide my dreams had to do some other things
Before a diamond ring I still feel you
Just like I used to
That time of year when days get long [Chorus] Funny how the seasons change
And time slips away [Chorus]
