Hesitate

Steve Moakler

The human heart is a scary part in fact
'Cause I could break you and you could break me back
Though my head says just forget it
You'll get hurt and you'll regret it
Ask me now and I won't hesitateSo many cards that never leave the deck
There comes a time when you have to place your bets
and tonight I've never been a gambling man
But if you want to see my hand
Ask me now and I won't hesitate'Cause I'm fearful of heights and you take me higher
What came with you was a view to admire
I've always been the kind to contemplate
But you like the kind that don't hesitateExcuse me while I fall for you
Excuse me while I fall for youI thought about it long and hard today
I realized I'm standing in our way
Usually my judgement's better
But with your blue eyes, hey whatever
Ask me now and I won't hesitate
Ask me now and I won't hesitateExcuse me while I fall for you
Excuse me while I fall for you
