

# Live It Up

## Scream Out Loud

Everyday i wake up to the same old shit  
Never knowing what tomorrow will bring  
I'm sick of waiting here thinking this will all be handed to me

It takes us half our lives to findÂ  
How fast this time will go by we'll never see a thing  
So don't let the moment pass you byÂ  
cause you'll never know just how it could have been

This is the best day of our lives  
So we should live it up while it's worth living  
I won't let myself fall behind i wanna be thereÂ  
when the chance is given to me  
And now finally i got just what i want for nowÂ  
And i swear i'll make the best of everything

It takes us half our lives to findÂ  
How fast this time will go by we'll never see a thing  
So don't let the moment pass you byÂ  
cause you'll never know just how it could have been

Something so beautiful is starting  
Lets hope it never ends

It takes us half our lives to findÂ  
How fast this time will go by we'll never see a thing  
So don't let the moment pass you byÂ  
cause you'll never know just how it could have been

It takes us half our livesÂ  
Don't let it pass you by

It takes us half our lives to findÂ  
How fast this time will go by we'll never see a thing
