Let's Love

The Critters

Tell her a story tell her the honest truth
You treat her better, make sure to see it through.
Don't be just everything she wants,
Be everything she needs
When she says she loves, tell her you love her tooGive her a reason, reason to love all you do
She'll tell you secrets
You'll tell her secrets too
She'll tell you all her hopes and dreams
You'll tell them too
When she says she loves you
Tell her you love her too
Tell her you love her tooBut don't you
Run away, run away
When you get scared
Cause this will
Slip away, slip away
And start a fire
And that cannot be put out
Hurry time is running out
But don't you
Run away, run away
Before you tell her you love herWhen she says she needs you, tell her you need her too.
You'll tell her clearly, speak what your hearts wants you too
Tell her she's lovely, always tell her the truth
When she says she loves you tell her you love herBut don't you
Run away, run away
When you get scared
Cause this will
Slip away, slip away
And start a fire
And that cannot be put out
Hurry time is running out
But don't you
Run away, run away
Before you tell her you love her
