

Come and Get It

Kip Moore

I got a fever, revving high
I need a lover, to get me right
TonightI got a picture, in my head
Of your lipstick, cherry red
Tonight, tonightGirl what's the matter with you?
Can't you see in when it's standing right in front of you?
Come and get it baby
Girl what's the matter with you
Can't you see it when it's standing right in front of you?
So come and get it tonightGot my engine, revving high
Girl I'm beggin, for a try
Tonight, tonightGirl what's the matter with you?
Can't you see in when it's standing right in front of you?
Come and get it baby
Girl what's the matter with you
Can't you see it when it's standing right in front of you?
So come and get it tonightMy heart you ain't gotta steal it
It's all yours so just come and get it
My heart you ain't gotta seal it
It's all yours so just come and get it tonightGirl what's the matter with you?
Can't you see in when it's standing right in front of you?Girl what's the matter with you
Can't you see it when it's standing right in front of you?
Come and get it babyMy heart you ain't gotta steal it
It's all yours so just come and get it
My heart you ain't gotta seal it
It's all yours so just come and get it tonightJust come and get it tonight
Just come and get it tonight
