

# Directions

## Ane Brun

I see doors in every direction  
I see them all wide open  
As I go near they won't close on me  
Won't close on me  
They won't close on me I look in every direction  
Finding my own way out  
As I go near they won't close on me  
They won't close on me  
They won't close on me Everything is possible  
Even when the sun don't shine  
'Cause I know how to walk right through  
How to walk right through  
How to walk right through  
I walk in the rain  
My shoes fill up with water  
With every step I get more wet  
I get more wet  
I get more wet Step one, step  
Step two, step  
Step three, step  
Step four, step! I can howl down a marching band  
My voice flies above the sound  
Flying over the beat of the drums  
The beat of the drums  
The beat of the drums  
I see doors in every direction  
I see them all wide open  
As I go near I just walk right through  
I just walk right through  
Just walk right through Step one, step  
Step two, step  
Step three, step  
Step four, step! Step one, step  
Step two, step  
Step three, step  
Step four, step!
