

# Beautiful Mourning

## Machine Head

Fuck you all My redemption is knowing  
This will be over  
My aggression, I fear I've lost control Who is this man I said?  
Mirror reflects a stranger  
Fist shatters the despair  
Awake the pain to anger How do I close thine eyes of murder?  
How do I close thine eyes of murder  
Staring into me? My obsession is dying  
Sinking me deeper  
My depression  
This world has disavowed Razor at wrist I seethe  
The flesh is peeled apart now  
Gone is my faded dream  
Failure, I welcome in thou How do I close thine eyes of murder?  
How do I close thine eyes of murder  
Staring into me? Oh, this lifetime in sorrow  
God, let the angels die  
(Let the angels die)  
This is our last goodbye  
(Our last goodbye) In love and death we cry  
(Death we cry)  
Our last goodbye, go No, no, no Spit in the face of loss  
Coward, my own self-hatred  
No more I bear this cross  
Struggle and rise from the dead This lifetime in sorrow  
God let the angels die  
(The angels die)  
This is our last goodbye  
(Our last goodbye)  
In love and death we cry
