

You

Gloria Estefan

You, simply said
Are the best thing in my life
Endless source of happiness
I could never have designed
 Unsurpassed, glorified
 The center of my universe
 I want so much to express
 But I can't find the words
 My world is changing
 But you make it all worthwhile
You mystify, sanctify, clarify my destiny
 You elevate, illuminate me
 Fill me with serenity
 Infatuate, you captivate me
 To the point where I can see
 You're all I'll ever need
 You, precious gift
 Every moment a surprise
 How I love to see the joy
 That's reflected in your eyes
 Fervent wish, personified
 I could live for your caress
 Everyday that you're mine

Makes me feel so blessed
 Our world is changing
 But you make it all worthwhile
You mystify, sanctify, clarify my destiny
 You elevate, illuminate me
 Fill me with serenity
 Infatuate, you captivate me
 Make it easy to believe
 You're all I'll ever need
 Your world is changing
 But you'll make it all worthwhile
 You, you
 You, you're all I'll ever need
You mystify, sanctify, clarify my destiny
 You elevate, illuminate me

Fill me with serenity
Infatuate, you captivate me
To the point where I can see
 You're all I'll ever need
 You
 Clarify my destiny
 Illuminate me
 You
