Vision

Fusebox

Open my eyes, give me vision to see You
Take off the blinders and let me know You
For I long to see You as You are
Give me vision to see YouI look for You in the wind
I look for You when the earth is shaking
You speak to me in the whisper
You let me see beyond my worldOpen my eyes, give me vision to see You
Take off the blinders and let me know You
For I long to see You as You are
Give me vision to see YouOpen my ears and let me hear You
Open my heart and show me You Father
For I long to see You as You are
Give me vision to see YouI look to You in the fire
I look to You and my will is breaking
You speak to me in the silence
You let me see Your truth unveiledOpen my eyes, give me vision to see You
Take off the blinders and let me know You
For I long to see You as You are
Give me vision to see YouOpen my ears and let me hear You
Open my heart and show me You Father
For I long to see You as You are
Give me vision to see YouIf we could catch a glimpse of You in all Your glory
Lord, our worshiping would never be the same
So let the scales fall from our eyesOpen my eyes, give me vision to see You
Take off the blinders and let me know You
For I long to see You as You are
Give me vision to see YouOpen my ears and let me hear You
Open my heart and show me You Father
For I long to see You as You areOpen my eyes, give me vision to see You
Take off the blinders and let me know You
For I long to see You as You are
Give me vision to see YouOpen my ears and let me hear You
Open my heart and show me You Father
For I long to see You as You are
Give me vision to see YouOpen my eyes, give me vision to see You
Take off the blinders and let me know You
For I long to see You as You are
Give me vision to see You
