

Why Should I Care

[Diana Krall](#)

Was there something more I could have done
Or was I not meant to be the one?
Where's the life I thought we would share?
And should I care? And will someone else get more of you?
Will she go to sleep more sure of you?
Will she wake up knowing you're still there?
Why should I care? There's always one to turn and walk away
And one who just wants to stay
But who said that love is always fair?
And why should I care? Should I leave you alone here in the dark?
Holding my broken heart
While a promise still hangs in the air
Why should I care? Why should I care?
