

Atom To Adam

Otep

Godless
Lawless
Stifled
Bondage
The grubs are fastened
In sackcloth and ashes
We are the children
Of amnesia of heaven
Their cries go unrequited
Lost in the deathly air
Mute sky and the godless black
Soft secrets of despair
Grim breath
Blistered stitch
Picked to bits
Corrupt what's left
Demons making monsters
Inject them with the toxin
Like Ishmael and the whale
Impale, impale, impale
Lord of lies
Kingdom of bones
Starve their minds
Atom to Adam
You who hate
You who rape
And contaminates
Atom to Adam
The grubs are fastened
In sackcloth and ashes
We are the children
Of amnesia in heaven
Inside this broken body
My soul is cold and throbbing
Subversive verses leave my lips
God is an atheist
Iron kiss
Thickest drug
Eat the meat

Of the young
Demons making monsters
Inject them with the toxin
Like Ishmael and the whale
Impale, impale, impale
Lord of lies
Kingdom of bones
Starve their minds
Atom to Adam

You who hate
You who rape
And contaminates
Atom to Adam
The grubs are fastened
In sackcloth and ashes
We are the children
Of the amnesia of heaven
Fucking shitsucking cowards building towers
Of Babel gagging your servants with perverted
Gavels atom to Adam to atom to Adam to atom
Trap them and brand them like
Cattle and shackle their spirits
Godless
Lawless
Stifled
Bondage
We are the victims of
The amnesia of heaven
Do unto
Do unto
Do unto
Others
Their cries go unrequited
Lost in the deathly air
Fist-fuck their face!
God doesn't care!
Grim breath
Blistered stitch
Picked to bits
Corrupt what's left
Demons making monsters
Inject them with the toxin
Like Ishmael and the whale
Impale, impale, impale

Lord of lies
Kingdom of bones
Starve their minds
Atom to Adam
You who hate
You who rape
And contaminates
Atom to Adam
Admit what you did
Admit what you did
Godless
Lawless
Godless
Mea culpa
