This Is Life

Blessing Offor

In the still of the night
In the quiet of the storm
In the moment you're dreaming,
At the top of a Ferris Wheel
Take a look around
And tell yourself that nothing will ever bring you down again
Something big is happening, Can you feel it
Things will never be the same again

Cause, this is life this is love, this is the moment,
this is life, this is love, and here you are
this is life, this is love, keeps you going in the dark,
From the very first time you feel the touch, the sound, the spark

It's in the body of a man, whose had all he can take
It's in the eyes of a girl, who never let's her heart break,
It's in the spirit of a protest, crying out for justice,
It's in the soul of a nation, who finally heeds the call, oh yes,
Something big is happening, can you feel it
Things will never be the same again

Cause this is life, this is love, this is the moment,
this is life, this is love, and here you are,
this is life, this is love, keeps you going in the dark,
from the very first time you feel, the touch, the sound, the spark

This is life,
This is life,
This is life,
This is life,

This is life, this is love, and here you are
This is life, this is love, keeps you going in the dark,
From the very first time you feel the touch, the sound, the spark

This is life,
This is life,
This is life,
This is life.
