

# Last of the Mohicans

## Maino

Grind hard, no sleeping,  
Will takers, no weakers  
Dedicated, no speaking  
Last of the Mohicans  
Living that fast life, we speeding  
Making sure  
Die for what we believe in,  
Last of the Mohicans  
The last of a motherfucking breed that's dying  
I said the last of a motherfucking breed that's dying my past life was a fast life  
Had to grind to get the cash right  
Any night could be my last night  
Out here, scuffing out my damn nights  
My mama broke, my father dead  
Where's the hope, you have no idea  
Ain't no food and  
About to do anything just for that bread  
I'd shoot a nigger in the fucking head  
I'd rob a bank, I'd do that big  
I'd sell them drugs, just to leave  
Man I'm just trying to fill up the fridge  
I'm the last of the dying kind  
Stand up man, not the crying kind  
Got your back, hold the iron kind  
Pop a nigger just for iron minds  
I'm the last real nigger in the world you heard,  
They left me to for the lasting verse  
Looking around now I see and verse  
They try to tell me I gotta watch my words  
Got to watch my words? No watch for that  
Niggers got my watch got a watch for that  
Got the all black benz  
And riding my wave like a  
Still grinding, take no gaze off  
Still hussling, wait till it pays off  
One plan that's straight no plan b  
Can't stop me from feeding my family  
Maino, that's right I know  
Last of the Mohicans Grind hard, no sleeping,

Will takers, no weakers  
Dedicated, no speaking  
Last of the Mohicans  
Living that fast life, we speeding  
Making sure  
Die for what we believe in,  
Last of the Mohicans  
The last of a motherfucking breed that's dying  
I said the last of a motherfucking breed that's dying in the but I was too bright for that dark side  
I bought a blue benz from  
cutting that coke with the d12  
If money is the root of evil  
I'ma burn that paper when I reach hell  
I put up like a bartender  
With enough through a harsh winter  
lifestyle, my my wife now  
but I still provide when it's time to eat  
Gotta live my life like a rolling stone  
I had a dream like Martin Luther  
like they MJ's doctor  
Get rich or die trying soldier  
I never fall out, death before the sun
