Automatic Girl

Lola Ray

Shrink wrap your kiss in plastic love
Make my mind up when you return
I don't know what has happened to me these days
But it feels like love in the strangest ways
How much have you learned uh-oh
How much have yo-ou learned u-uh-oh
Don't fear cause when you return I'll be here
Waiting by your side, it doesn't matter dear
This is end of the world so it seems
I've got automatic love for automatic girl
This is the world of the end that I see
I've got automatic guns for automatic boys
Automatic toys for automatic girls
Everything keeps the right melody
I've got a couple of killing machines
(Automatic girl, automatic girl)
Lick my lips just to hear the sound
Trash my room when you're not around
I don't know what has happened to me these days
But it feels like love in the strangest ways
How much have we learned uh-oh
How much have we-e learned u-uh-oh
Don't fear cause when you return I'll be here
Waiting by your side, it doesn't matter dear

This is end of the world so it seems
I've got automatic love for automatic girl
This is the world of the end that I see
I've got automatic guns for automatic boys
Automatic toys for automatic girls
Everything keeps the right melody
I've got a couple of killing machines
I have...
(Automatic girls, automatic girls, automatic girl.... automatic!)
This is the end
This is the end
This is the end of the world so it seems
I've got automatic love for automatic girl
This is the world of the end that I see

I've got automatic guns for automatic boys
Automatic toys for automatic girls
Everything keeps the right melody
We've got a couple of killing machines
Automatic guns for automatic boys
Automatic toys for automatic girls
Everything keeps the right melody
Gotta a couple of killing machines
Couple of killin machines
Yeah, yeah
