So Good

Gloria Estefan

Just look the other way, I know
If I could resist I would
Be smart and just walk out that door
Or at least I know I should
The minute that you touched my hand
I knew without a doubt
That you would have the upper hand
But that?s what life?s about
And it feels so good, so good, so good, so good
You make me feel so good, so good, so good, so good
Can?t wait to get you all alone
To see what lies ahead
I?ll leave behind my comfort zone
And kiss your lips instead
I wanna feel how warm it gets
When your body?s close to mine
I wanted it the day we met
And you wouldn?t leave my mind
That it would feel so good, so good, so good, so good
You make me feel so good, so good, so good, so good
You can try to analyze it
Or just accept how you feel
Pinch yourself, look in the mirror
Baby this is real
You should feel so lucky that you?re
Only one of a few
That makes me forget everyone else

And wanna be with you
You make me feel so good, so good, so good, so good
[x2]So good
So good, so good, so good [x4]
You can try to analyze it
Or just accept how you feel
Pinch yourself, look in the mirror
Baby this is real
You should feel so lucky that you?re
Only one of a few
That makes me forget everyone else

And wanna be with you
You make me feel so good
So good, so good, so good
So good, so good, so good
[x2]So good, so good, so good
[x2]You can try to analyze it
Or just accept how you feel
So good, so good, so good
[Repeat until the end]
