

# There Ain't Nothin' Wrong With the Radio

[Aaron Tippin](#)

Some times she runs, some times she don't  
More than once shes left me on the side of the road  
The older she gets the slower we go  
But There Ain't Nothin' Wrong With The Radio  
She needs a carbuerator, a set of plug wires  
Shes riding me around on four bald tires  
The wipers don't work and the horn don't blow  
But There Ain't Nothin' Wrong With The Radio I got sixteen speakers crossin my back dash  
A little bobbin dog watchin everybody pass  
Dual antennas whippin in the wind  
Lord there ain't no country station that I can't tune in  
She ain't a cadillac and she ain't a Rolls  
But There Ain't Nothin' Wrong With The Radio I got stopped by a cop late last night, out of date tags and no  
taillights  
He said I oughta run you in but im a lettin you go  
Because There Ain't Nothin' Wrong With The Radio  
Got the best lookin gal in my hometown  
I asked her last time that I took her out  
Honey tell me what it is that makes you love me so  
She said There Ain't Nothin' Wrong With your Radio No she ain't a cadillac and she ain't a rolls  
But There Ain't Nothin' Wrong With The Radio
