

I Hear Colors (Chromaesthesia)

The Black Angels

I hear colors running through my mind
I can feel it dripping in my eyes
I see colors ancient spectrum lives
In through me they enter, make me shine
So bright
I see colors growing just like vines
Hiding me and keeping me in line
I can hear them everywhere
screaming by and growing bright
I don't need nobody's help
need nobody's help
I don't need nobody's help
need nobody's help
I feel colors rushing through my veins
making me invincible to pain
I can hear them everywhere
screaming by and growing bright
so bright
I can hear them crawling down my spine
In through me they enter make me
Does my time fly? Does my time fly?
I don't need nobody's help
need nobody's help
I don't need nobody's help
need nobody's help
I don't need nobody's help
need nobody's help
I don't need nobody's help
need nobody's help
