

Strange

[Tori Amos](#)

Strange
Thought I knew you well
Thought I had read the sky
Thought I had read a change
In your eyes So strange
Woke up to a world
That I am not a part
Except when I can play
Its stranger After all what were you really looking for
And I wonder when will I learn strange
Blue isn't red everybody knows this
And I wonder when will I learn, when will I learn Guess I was in deeper than
I thought I was
If I have enough love
For the both of us Just stay you said, we'll build a nest
So I left my life tried on your friends
Tried on your opinions
So when the bridges froze
And you did not come home
I put our snowflake under a microscope After all what was I really looking for
And I wonder when will I learn
Maybe my wish knew better than I did
And I wonder when will I learn, when will I learn Guess I was in deeper than
I thought I was
If I have enough love
For the both of us So strange now I'm finally in
The party has begun
It's not like
I can't feel you still But strange
What I will leave behind
You call me one more time
But now I must be leaving
