

Legs

Danko Jones

Legs legs The longer they get
The more foolish I get in the head
Legs legs - the longer they get
The more supider I'm in the end I like 'em ten feet tall
Barefoot or high heels on
I like 'em wrapped around me
Or walking up on top me
If you spend the night
There's just one thing that I like Oh la la la la la la Legs legs legs - longs legs
Legs legs legs - long legs
Legs legs The longer they get
The more foolish I get in the head
Legs legs - the longer they get
The more supider I'm in the end I watch them stomp down the street
It gets so hot, I can't breathe
I like them walking round, standing up or sitting down
If you spend the night
There's just one thing that I like Oh la la la la la la Legs legs legs - longs legs
Legs legs legs - long legs
Legs legs I like 'em ten feet tall
Barefoot or high heels on
I like 'em wrapped around me
Or walking up on top me
If you spend the night
There's just one thing that I like Oh la la la la la la la la la la la la
la la la la la la la la la la la la Legs legs legs - longs legs
Legs legs legs - long legs
Legs legs legs - longs legs
Legs legs legs - long legs
Legs legs legs - longs legs
Legs legs legs - long legs
