

Devil's Time

Reuben And The Dark

[Verse 1]

Well it came from the water with a black heart, oh my god

And fell like a sunset sinking in a fever

Well it held my hand, no, it had me by the throat

We were coming down as the sun was just coming up[Pre-Chorus]

I went walking on the Devil's time

With nothing but shadow from the other side[Chorus]

Now don't save my soul

I'll take my chances on these winding roads

I'll go wherever the wild wind blows

Cause if I'm gonna die, I wanna die an old ghost[Verse 2]

When they found by the water, I was sick and shivering

It was howling in the hills, you could hear it in the wind

Well it held my hand, no it had me by the throat

We were coming down as the stars were just coming up[Pre-Chorus]

I went walking on the Devil's time

Oh, with nothing but shadow from the other side[Chorus]

Now don't save my soul

I'll take my chances on these winding roads

I'll go wherever the wild wind blows

Cause if I'm gonna die, I wanna die an old ghostNow don't save my soul

I'll take my chances on these winding roads

I'll go wherever the wild wind blows

Cause if I'm gonna die, I wanna die an old ghost[Instrumental][Pre-Chorus]

I went walking on the Devil's time

With nothing but shadow from the other side[Chorus]

Now don't save my soul

I'll take my chances on these winding roads

I'll go wherever the wild wind blows

Cause if I'm gonna die, I wanna die an old ghostNow don't save my soul

I'll take my chances on these winding roads

I'll go wherever the wild wind blows

Cause if I'm gonna die, I wanna die an old ghostI went walking on the Devil's time

With nothing but a warm breeze blowing by and by
