Black and Blue

Consumed

Down at the back near the shed.
I'll be there, I'm waiting for you,
got a surprise for you, a garden tool to fill your face in.
It's likely you'll find her there.
Yeah she'll come, she couldn't miss it
and all the boys will be there, 'cause they're not square.
They're always seen there.
They'll fill you in, they'll fill you in, fill you in, they'll fill you in.
So if you change your mind, better look up.
You better be tooled up.
They're not the kindly types.
They'll have a say, but they give no reason.
They fill you in (3x).
chorus:
And now they're (it's) coming down on you
black and blue, black and blue.
Didn't I tell you what they'll do?
black and blue, black and blue.
Didn't I tell you what to do?
black and blue.
chorus.
