Going On

Ella Eyre

(Verse)
Seen it with my own eyes
How we're getting otherwise
Without the luxury of leavingThe touch I'm feeling I'm free
Intangible technically
Something you've got to believe inConnect the cause and effects
One foot in front of the next
This is the start of a journeyMy mind is already gone
And though there are the unknown
Somehow this doesn't concern me(Pre-Chorus)
And you can stand right there if you want
But I'm going on(Chorus 1)
And I'm prepared to go with it all
I'm going on
To a place in the sand that's nice and warm
I'm going on
And I'm sure they'll have a place for you too(Verse)
Anyone that needs what they want
And doesn't want what they need
I want nothing to do with oh ohAnd to do what I want
And to do what I please
It's messed up not to do thisBut every once in a while
I think our bodies can smile
One of the few things I do thisBut baby I got to go
Baby I got to know
And baby I got to prove it(Pre-Chorus)
And I'll see you when you get there
But I'm going on(Chorus 2)
And I'm prepared to go with it all
I'm going on
May your love lift you up to a place you belong
I'm going on
And I promise I'll be waiting for youAnd I'm prepared to go with it all
I'm going on
May your love lift you up to a place you belong
I'm going on
And I'm prepared to go with it all
I'm going on on on
Taking you up to the place you belong

I'm going on
May your love lift you up to a place you belong
I'm going on and on and on and on and on
I'm going on and on and on and on
Don't follow me
