

# Glory

## Sugar Ray

It's good to see you here again  
I thought you almost died  
Remember when we were listening in  
You barely had to try  
Giant falling from the sky  
Please tell me lie after lie Now I know they're gonna take my glory  
From the ones I left behind  
And I know they're gonna say they're sorry  
But I'll never change my mind Everybody's gonna find me out  
I'm going down this time  
Everybody's gonna know about  
The mess you left behind  
Giant falling from the sky  
Please tell me lie after lie Now I know they're gonna take my glory  
From the ones I left behind  
And I know their gonna say their sorry  
But I'll never change my mind Hey hey hey  
Aaa  
Hey hey hey  
Aaa You say I'm lazy, then you lie around  
You try to put me down  
I know you're crazy when I see  
You spin your head around  
Giant falling from the sky  
Please tell me lie after lie Now I know they're gonna take my glory  
From the ones I left behind  
And I know their gonna say they're sorry  
But I'll never change my mind Hey hey hey  
Aaa  
Hey hey hey  
Aaa Now I know they're going to take my glory  
And I know they're going to say they're sorry  
And I know they're going to say they're sorry  
No I'm never going to tell my story
