When You're Drinking

Roman Alexander

Last night, I could do no wrong
by every word you hanging on
like words to your favorite song

Last night, you were laying on the charm
I kept feeling you touch my arm
same story in every bar

And I wish you loved me
like you do every Friday night.
wish you still wanted me
when the sun begins to rise
You had to have me
like you do when you're not thinking
I wish you loved me, like you love me
when you're drinking.
(Ooo yeah, when you're drinking)

This morning, I called just checking in
you were back to sober again
so we were back to being just friends

I wanna say, that I could be your strong stuff
keep you high when you lose your buzz
I wish it didn't hurt me like it does

And I wish you loved me
like you do every Friday night.
wish you still wanted me
when the sun begins to rise
You had to have me
like you do when you're not thinking
I wish you loved me, like you love me
when you're drinking.
(ooo yeah, when you're drinking)

BRIDGE:
I live for the weekends when your walls come down
I wish I had a better reason but that's all you're giving me right now.

And I wish you loved me
like you do every Friday night.
wish you still wanted me
when the sun begins to rise
You had to have me
like you do when you're not thinking
I wish you loved me girl, like you love me

I wish you loved me, like you love me
when you're drinking.
Ooo yeah.
