One Love

Kaysha

When I get older
I'll drive up to the sky
and talk to the stars about you
When I get deeper I dive to the bottom of the seas
and get these pearls for you babe

chrs:
Coz I got one love
and I can love you for the rest of my life
I got one love
and I can love you for the rest of my life

When I get stronger
I'll walk up to my ex
and tell her 'bout our history baby
Sooner or later I'll put a ring on your finger
and love you for ever, no matter
Make sure u whimped my llove
Coz you my destiny, my ebony, my ivory on my piano key,
the reason why I dive through the seven seas

Coz you are my love
yeah
I got one love, baby
and I can love you for the rest of my life
I got one love, baby
and i can Love you for the rest of my life

when get wiser
I'll take a resolution
and make my revolution yeah
when I get lighter
I'll take my love away and dwell in paradise,
wait for you for ever
Ohhhhhhh

I can love u for the rest of my life

Chorus

Coz i got one love..yeah
one love
and i can love you for the rest of my life
one love

And i can love u for the rest of my life....

Coz i got one love

for you
