

Aspirin

Ben Kenobi

Best before date was by 1997
It was the aspirin I gave to my friend one day

Yesterday I felt sick, enough a minor headache
I hadn't known before I swallowed up a pill

Why is this pill in my house, still in here
In 1997 I might be a crazy high school boy
I should throw it away

How about we put this pill in a tomato soup
How about we melt this thing with butter and chocolate chips
How about just giving one to a grumpy neighbor and see what happens

How about I chew this pill when I'm down and out
How about I take this thing when I sleep with girls
How about just eating all to change my current life and see what happens

Will any of these actions change
Whatâ€™s for alternate lives
Will anyone be there for me
Or I'm a Grinch with a grin

Best before date was by 1997
It was the aspirin I gave to my friend one day
I felt sick again too much of a headache
I did know this time before I swallowed up a pill

But why is this pill in my house still in here
In 1997 I might be a crazy high school boy
