

Erase Me

Ben Folds Five

Advisory - the following lyrics contain explicit language:

What was our home
Paper not stone
A lean-to at most
And when you pulled
Your half away
Gravity won
Like it always does
Did I weigh a ton?
Would it be easier, to just delete
Our pages and the plans we made?

.

Erase me
So you don't have to face me
Put me in the ground and mow the daisies
Ah, the memory, see how it goes
When you

.

Erase me
Erase me

.

So what will you do
With no me for you?
I know what we said
what if I left a thing or two?
We know that you don't seem
To think about what you need
'til you reach to find that you've

.

Erased me
What the fuck is this?
You're crazy, turned around
In two weeks time replaced me

Oh, the memory everybody knows
How it goes you just

.

Erase me
Do me like a pro and taze me
Fireworks - poof - it's gone, amazing
New bio, you've gone solo
Drawing mustaches on our wedding photo

.

Erase me
Erase me
...Erase me...

.

Ahhh... [X1000}Erase me
This is not shouting, baby
Erase me
Go on call the cops now, baby
Oh, the memory everybody knows
But the brand new hoe

.

Erase me
And you'll never have to face me
Erase me
Option-Command-Escape me
And if you feel nothing
Guess what I wanna be
Nothing
