

# Don't Say Goodbye

Kelly Price

Oh baby, I, I, I don't wanna say  
Don't wanna say, don't wanna say  
Mmm, hear me baby Don't say goodbye, I'll love you for my life time  
Without you there is no me, mmm, don't say goodbye  
'Cuz soon it will be all right, well baby can't you see Baby hold on to what you know is real  
We've had our share of problems, but they can't change the way I feel  
We're gonna make it through the rough times, together you and I  
I've been loving you too long, so stay with me, don't say goodbye Don't say goodbye, I'll love you for my life  
time  
Without you there is no me, mmm don't say goodbye  
'Cuz soon it will be all right, well baby can't you see Baby hold on, it won't be very long  
All these problems we've been through, they're making our love strong  
We've gotta hang in there in just a little while  
For every tear we've cried, we will wear a smile, don't say goodbye Don't say goodbye, I'll love you for my life  
time  
Without you there is no me, mmm don't say goodbye  
'Cuz soon it will be all right, well baby can't you see 'Cuz I know  
I know that we can make it, if we only try  
Oh baby don't worry 'bout a thing you gotta believe me  
This love was meant to be, don't ever say goodbye, goodbye  
I promise to love you baby, please Please stay with me baby, I don't wanna hear you say  
'Cuz I would go crazy, if you weren't with me  
Please stay with me baby, I don't wanna hear you say  
'Cuz I would go crazy, if you weren't with me  
And baby can't you see Don't say goodbye, I'll love you for my life time  
Without you there is no me, mmm don't say goodbye  
'Cuz soon it will be all right, well baby can't you see Don't say goodbye  
I'll love you for my life time  
Without you there is no me
