Angel In My Heart

Jump5

I heard a whisper that touched deep inside my soul Like some familiar melody A hidden chapter from a story left untold I gotta feeling, I could believe in There is an angel in my heart Feels like I'm guided by a candle in the dark It's taken all this time To finally find out what I could never see You were there for me Now there is no doubt that there will always be An angel in my heart You were the friend, you were the one I could confide in You gave me strength that I could never find Deep emotions that I've always been denying I believe in, it's so close now, it's you that I'm feeling There is an angel in my heart Feels like I'm guided by a candle in the dark It's taken all this time To finally find out what I could never see You were there for me

Now there is no doubt that there will always be An angel in my heart Finally found what I've been searching for All my life It was right before my eyes Oh, you are my angel I know you'll always be there You are my one and only angel To finally find what I could never see You were there for me Now there is no doubt that there will always be An angel in my heart There is an angel in my heart Feels like I'm guided by a candle in the dark It's taken all this time To finally find out what I could never see You were there for me Now there is no doubt that there will always be An angel in my heart
