

One Smart Nigger

King Geedorah

See, people are too hung up on the word itself instead of the intent, it's the intent what you mean when you say something

Some smart nigger

Hey whitey,

You and your punk friends killed my man

Please! Don't kill me!

I didn't mean to do it! He told me to!

You need to know!

Please, no, aah, aaaaah!

The black was in the trunk - dead

We must not sit back and be spectators

We must uhh - killing is good

Then we must uhh, take a position

And if we're capable of taking in - killing blacks - a meaningful or useful action then that's our responsibility also

You disgusting men are filled with deceit!

Yip yip, what's that?

Crackers of your area, you might be in danger!

- They claim to be the army of God, but they're far from it

- Army of God?

- Yeah, but they're more like the devils' army

You won't get away with this, cracker!

Stealing our food, taking our women, they do whatever the hell they want to and that's how it is

- How come no one stands up to them?

- Emotional problems uhh, low self-esteem, uhh, uhh

Not much we can do against men like that

White people have always been attracted to what they consider, black culture

Some smart nigger

- So, what do you think about blacks?

- I wouldn't call them human

- Pitch the word 'nigger', see what they say

And that, he was very serious

And what do you think I should do?!

You won't get away with this, cracker!

You must all prepare yourselves for what will happen!

African, diversity, is, substantially, more significantly greater, than outside of Africa

This is what you'd expect in an older population, the original population of the anatomically modern humans

They know exactly what they're doing

Fiction, drama

God has chosen us to lead us to victory!
That's all I needed to know from you
They claim power in the name of God
And they control people through fear, and suffering, and cold-blooded murder
But now that's going to end
AAAH, look out the window!
Hey, look at that, it's a flying saucer!
