True Love

Calvin Richardson

I'm always thinking of you
So I thought I'd let you know
I hope I'm not intruding
By telling the world I love you soI thought I'd get to know you
What your love's about
I'm always thinking of you
'Cause you live inside my dreamsOhh, searched the world to find your love, it's true
How long have I been looking for you
I've never searched so hard in my life
To find someoneTrue love is hard to find
Someone to treat you right
And if true love you need
Then you will find it in meI hope that you will measure
The contents of my heart
I hope that you will treasure
The way that I feel for youAnd if you chance you'll understand
The sentiments of a man, yeah
I know you won't be curious
'Cause my love will keep you walking byIt's true I've searched to find a world just for you
I've been looking in the sky for the star
That you are, just to find
My only peace of mindTrue love is hard to find
Someone to treat you right
And if true love you need
Then you will find it in me
